

LIGHT.STRONG.RELIABLE

**Discover the Future of Ceiling
Design
Seamlessly Inside and Out**

Discover **Mass** Decor: Engineering Reliability in Ceilings

Reliability in construction isn't just what you see — it's what stays strong when weight, time, and noise press down.

With 35+ years of experience, Mass Decor engineers ceilings with aerospace-grade honeycomb panels that deliver:

Strength under pressure.

Lightness without compromise.

Endurance that lasts.

From workplaces to airports, our ceilings are trusted by architects and contractors who value performance as much as design.

Because a ceiling isn't only covering space — it's holding reliability above you.

Flip the page to explore how our 35 years of expertise can elevate your next project.

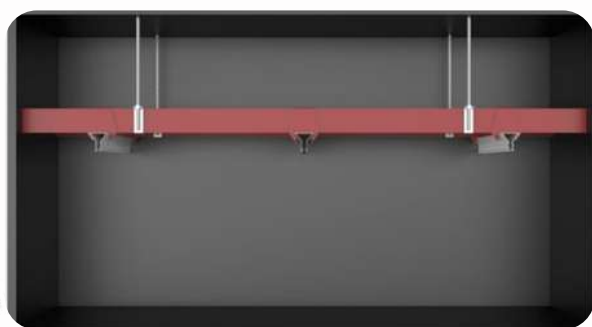

From **interiors** that demand elegance to **exteriors** that face the elements – our ceilings are designed to perform everywhere

The **Choice** That Elevates Spaces

Mass Decor
Honeycomb Ceilings

vs

Gypsum Board

Two choices. One truth waiting just
beyond.

Every ceiling **reveals** more when compared side by side

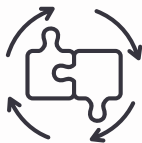

Mass Decor

**When Every Detail Demands
Precision**

Light as Air, Strong as Steel

Seamless Access, Always Ready

Gypsum Board

**When Budget Sets
the Boundary**

Heavy to Lift, Quick to Crack

Cut, Patch, Repaint

Every ceiling **reveals** more when compared side by side

Mass Decor

**Designed for Airports,
Hospitals, Malls**

Moisture? No Fear. Shine Lasts.

One Investment, 25+ Years of Life

Gypsum Board

**Suited for Dry Homes
& Offices**

Damp Spots, Mold Risk, Repairs

Repaint Cycles, Shorter Span

Every ceiling **reveals** more
when compared
side by side

Mass Decor

Exterior or Interior,
One Language

Gypsum Board

Interior Only,
Limited Scope

“In the end, every ceiling choice reflects
performance, cost, and vision — only one
aligns with them all.”

Designed Around You

**Strength, beauty, and precision –
all in one choice.**

Every Specification Tells a Story – This is Where They Differ

Technical comparison

Dimension	Mass decor Ceiling	Gypsum Ceiling
Material	Aluminum skin + honeycomb core, lightweight & high strength	Gypsum + fiber/additives, brittle
Weight	Lightweight (4-5 kgs)	Heavier (22-25 kgs)
Durability	Waterproof, anti-corrosion, lifespan 10+ years	Prone to moisture/mold, lifespan 5-8 years
Fire resistance	Class A fire rating	Class B1 fire rating
Installation	Modular design, fast installation	Requires Cutting/plastering, longer period
Maintenance	Easy to clean, low maintenance	Requires periodic repairs/repainting
Soundproofing	Honeycomb structure absorbs sound	Average, may need extra insulation
Eco-friendliness	Recyclable	May contain non-degradable additives
Design	Customizable colors/textures	Suits traditional styles, needs painting

**What you see is the ceiling, what
you feel is the strength – built
on **components** of precision.**
